

Rating Action: Moody's Ratings assigns MIG 1 to Holmdel, NJ's BANs; affirms outstanding Aaa issuer and GO ratings

01 Sep 2026

New York, September 01, 2026 -- Moody's Ratings (Moody's) has assigned a MIG 1 rating to Holmdel Township, NJ's \$17.4 million Bond Anticipation Notes. We have also affirmed the township's Aaa issuer and general obligation unlimited tax (GOULT) ratings. The township will have around \$45 million in total debt outstanding, post-issuance.

RATINGS RATIONALE

The Aaa issuer rating reflects the township's strong and established local economy in central New Jersey. The township has some new redevelopment that will be additions to revenues in the coming few years. Resident income and wealth are very strong.

Reserves are strong and largely stable. The township's future budgets will continue to see growing health care costs which will challenge the township to maintain structural balance.

Leverage is affordable and there are no material debt issuance plans in the coming few years. The township will continue to authorize around \$4 million in projects annually which will be funded with short-term notes.

The Aaa GOULT rating is at the same levels as the issuer rating reflecting the unlimited ad valorem tax pledge that supports the bonds.

The MIG 1 rating reflects the strong underlying credit quality, as evidenced by its Aaa issuer rating, and history of market access.

RATING OUTLOOK

We do not assign outlooks to local government issuers with this amount of debt outstanding.

REGULATORY DISCLOSURES

For further specification of Moody's key rating assumptions and sensitivity analysis, see the sections Methodology Assumptions and Sensitivity to Assumptions in the disclosure form. Moody's Rating Symbols and Definitions can be found on <https://ratings.moodys.com/rating-definitions>.

For any affected securities or rated entities receiving direct credit support/credit substitution from another entity or entities subject to a credit rating action (the supporting entity), and whose ratings may change as a result of a credit rating action as to the supporting entity, the associated regulatory disclosures will relate to the supporting entity. Exceptions to this approach may be applicable in certain jurisdictions.

For ratings issued on a program, series, category/class of debt or security, certain regulatory disclosures applicable to each rating of a subsequently issued bond or note of the same series, category/class of debt, or security, or pursuant to a program for which the ratings are derived exclusively from existing ratings, in accordance with Moody's rating practices, can be found in the most recent Credit Rating Announcement related to the same class of Credit Rating.

For provisional ratings, the Credit Rating Announcement provides certain regulatory disclosures in relation to the provisional rating assigned, and in relation to a definitive rating that may be assigned subsequent to the final issuance of the debt, in each case where the transaction structure and terms have not changed prior to the assignment of the definitive rating in a manner that would have affected the rating.

Moody's does not always publish a separate Credit Rating Announcement for each Credit Rating assigned in the Anticipated Ratings Process or Subsequent Ratings Process.

Regulatory disclosures contained in this press release apply to the credit rating and, if applicable, the related rating outlook or rating review.

Please see <https://ratings.moodys.com> for any updates on changes to the lead rating analyst and to the Moody's legal entity that has issued the rating.

Please see the issuer/deal page on <https://ratings.moodys.com> for additional regulatory disclosures for each credit rating.
